

City of Dallas Vehicles

All vehicles need three things:

1. An Unexpired City of Dallas Vehicle Permit – in the center of the windshield.
2. An Unexpired DFW Vehicle Permit – in the lower right corner of the windshield.
3. A Texas Toll Tag issued by DFW – in the center of the windshield

You should check the glove box to make sure you have an unexpired registration and insurance prior to being pulled over. Also the registration sticker on the windshield should be unexpired.

If your City of Dallas or DFW permit is about to expire or missing due to a new windshield or other reason, please let your manager know, so they can get you a new one.
