

New Driver Bonus

New drivers who pass the background check and continue to do rides are eligible for a new driver bonus after 30 days and 90 days. This bonus will be added to their check as long as they remain an active driver.

The amount is \$100 for full time and \$50 for part time.

Full time is generally more than 20 trips averaged over the last two pay periods. Part time is generally less than 20 trips averaged over the last two pay periods. We sometimes make exceptions when trip revenue is much higher than normal.

Management reserves the right to increase the amount up to \$250 if you are doing more work than a normal full time driver.
