

## **What Destinations Require an SUV?**

Dirt Roads, Gravel Roads or Potholes often cause major damage to sedans. To avoid this we require an SUV or Shuttle since they are higher off the ground and have truck suspension.

Here is a list of common destinations where an SUV is required:

- Sedona Mago Resort in Sedona, AZ
- Castle Hot Springs Resort in Morristown, AZ
- Any destination with gravel or dirt roads excluding short driveways with no potholes.

There are no exceptions because the cost of fixing the vehicles is thousands of dollars and we pay out of pocket for everything.
